

# *Still A Friend Of Mine*

You took your time  
To speak your mind  
Took every chance to disagree  
Talked late night talks  
Walked midnight walks  
To find out what you wanna be

The same old lies  
Just compromise  
No angry voice amongst the crowd  
A world of people keeping quiet as they're told  
You were the one to speak out loud

I wonder how the world would be  
If everyone could see what you could see  
Give me a sign  
You're still a friend of mine

No cash in hand  
No promised land  
Could ever put your mind at ease  
When you made fun of all that stardom and fame  
They said that you were hard to please

I wonder how the world would be  
If everyone could see what you could see  
Never in line  
You're still a friend of mine

We need the stubborn little child  
That keeps the naked emperors  
From running wild  
So we might start to talk about  
What we don't dare to see  
And maybe find the child  
In you and me

You took your time  
To speak your mind  
Until the truth was plain to see  
We're run by maniacs by maniac means  
And only love will set us free

I wonder how the world would be  
If everyone could see what you could see  
Never in line  
Pearls before swine  
After all this time  
You're still a friend of mine
